

Renovations are happening at Emerald Court of Norwood

At Beverly Healthcare Emerald Court, we believe our residents should feel right at home. For that reason Beverly Healthcare has committed \$1,000,000 in renovations which, when complete, will result in a brand new look that both residents and visitors are sure to enjoy.

Once the dust has settled, our facility will be lighter and brighter, with new wall coverings, new carpets, new window treatments and more! With more space, residents will have easier access all around our facility and find the environment much more conducive to social interaction and recreational activities...something we feel is just as important as top rate medical care. For instance, the dining room will sport a new, casual buffet-style service making "meal-time" a time for conversation and sharing in a relaxed, warm environment.

Look for completed renovations and our open house event by mid July. And remember, at Emerald Court of Norwood, we know that looks aren't everything...but they sure do help!
