

"I am a rose... a precious rose of a rare variety. I am the Dighton Rose, a symbol of grace, timelessness and simplicity... a symbol of classic elegance.

I have been painstakingly cultivated and gently nurtured on domestic soil, to the most exacting of specifications. Specifications along with a demand for quality that withstands no compromise. I am the natural by-product of two of the most renowned names in American tableware: Princess House and Oneida.

Princess House combined my exclusive pattern with Oneida's superior 18/8 stainless steel, to create an extraordinary collection of fine tableware that embraces modern living with impeccable good looks—looks that only flourish with time. My pattern is the emblem of elegance, durability and lasting value.

I am Dighton Rose... and I am yours. Exclusively from Princess House and Oneida."
