

"Santa's Workshop"

1995 Special Edition

Certificate of Authenticity

The joy of giving has Santa and Mrs. Claus smiling from ear to ear in this captivating scene from "Santa's Workshop." It's Christmas Eve, and Santa and his helpers are putting a few last-minute touches on some special gifts.

Warm, rich colors set the scene aglow with happiness, while the artist captures your imagination in the most realistic little details: you can "hear" the kettle simmering in the fireplace... "touch" the softness of Mrs. Claus' fringed shawl... and "feel" the loving touch of the elf's paintbrush. It's a moment to treasure, banded in 18 karat gold.

This certificate, and the commemorative stamp on the back of the plate, authenticate "Santa's Workshop" as a "Princess House Exclusive" issued as a one-time collectible in the year 1995. We hope you will make it a treasured part of your holiday celebration for years to come.
